## OX

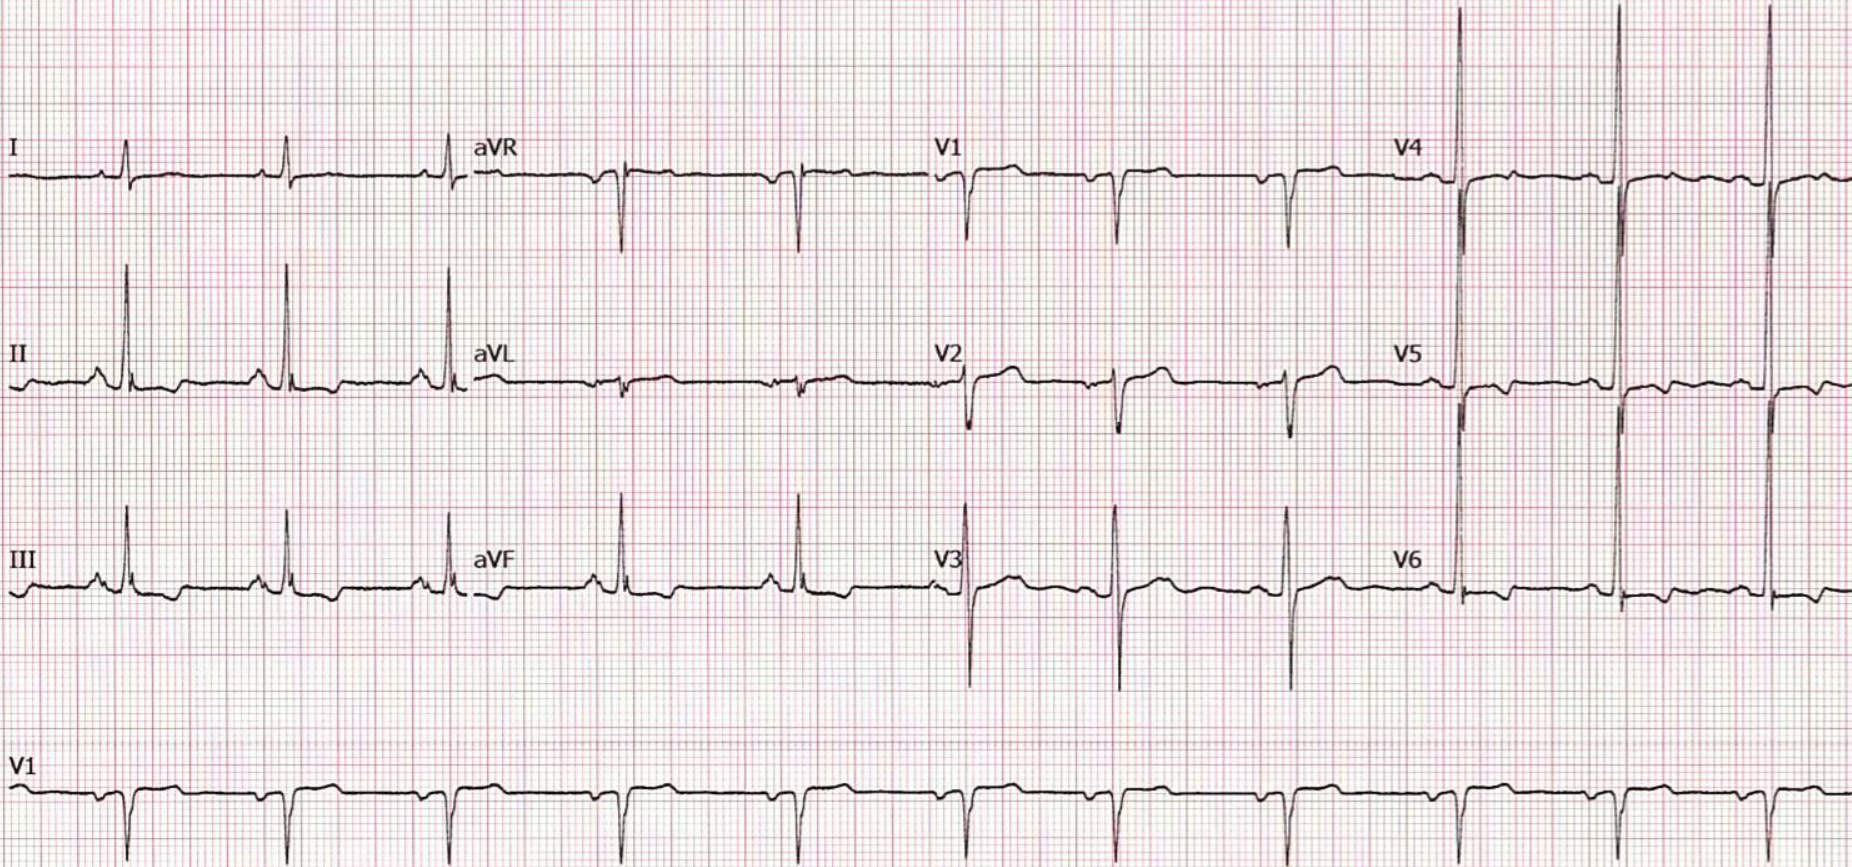

Unconfirmed

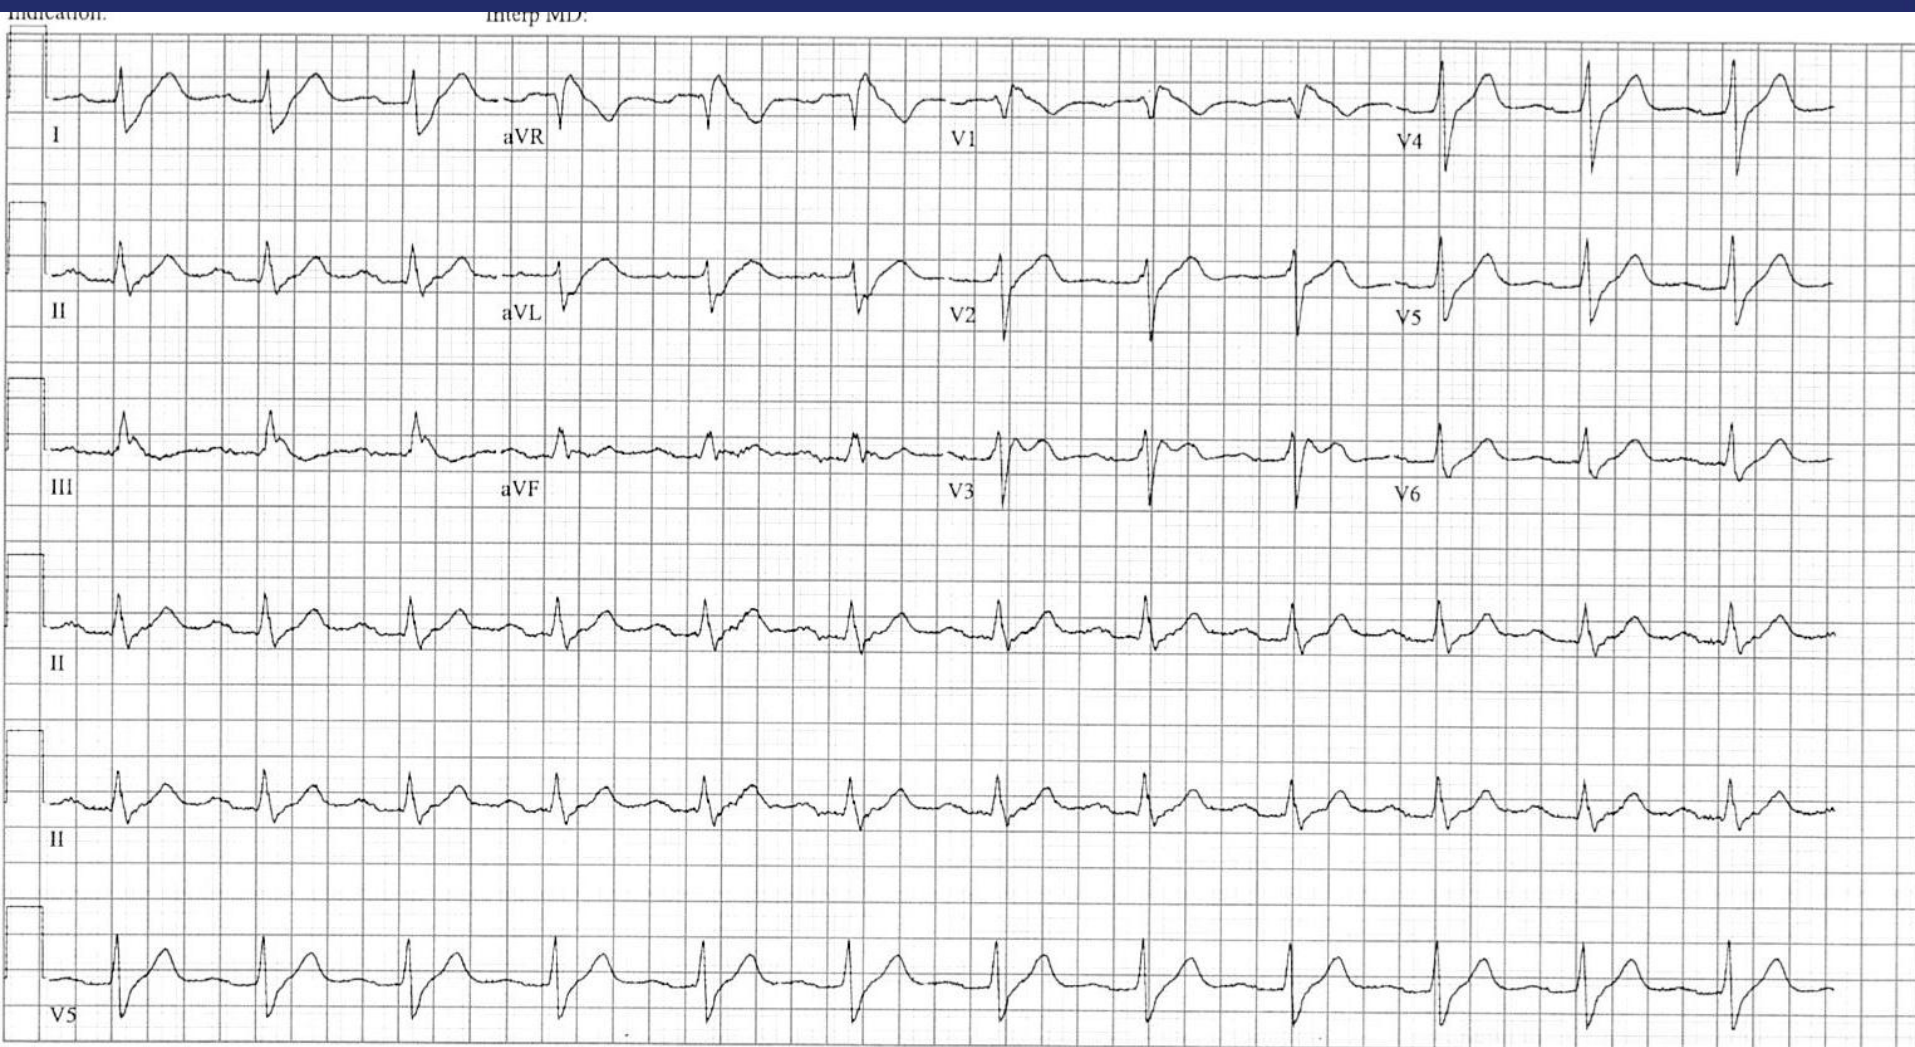

# Is this AFib?

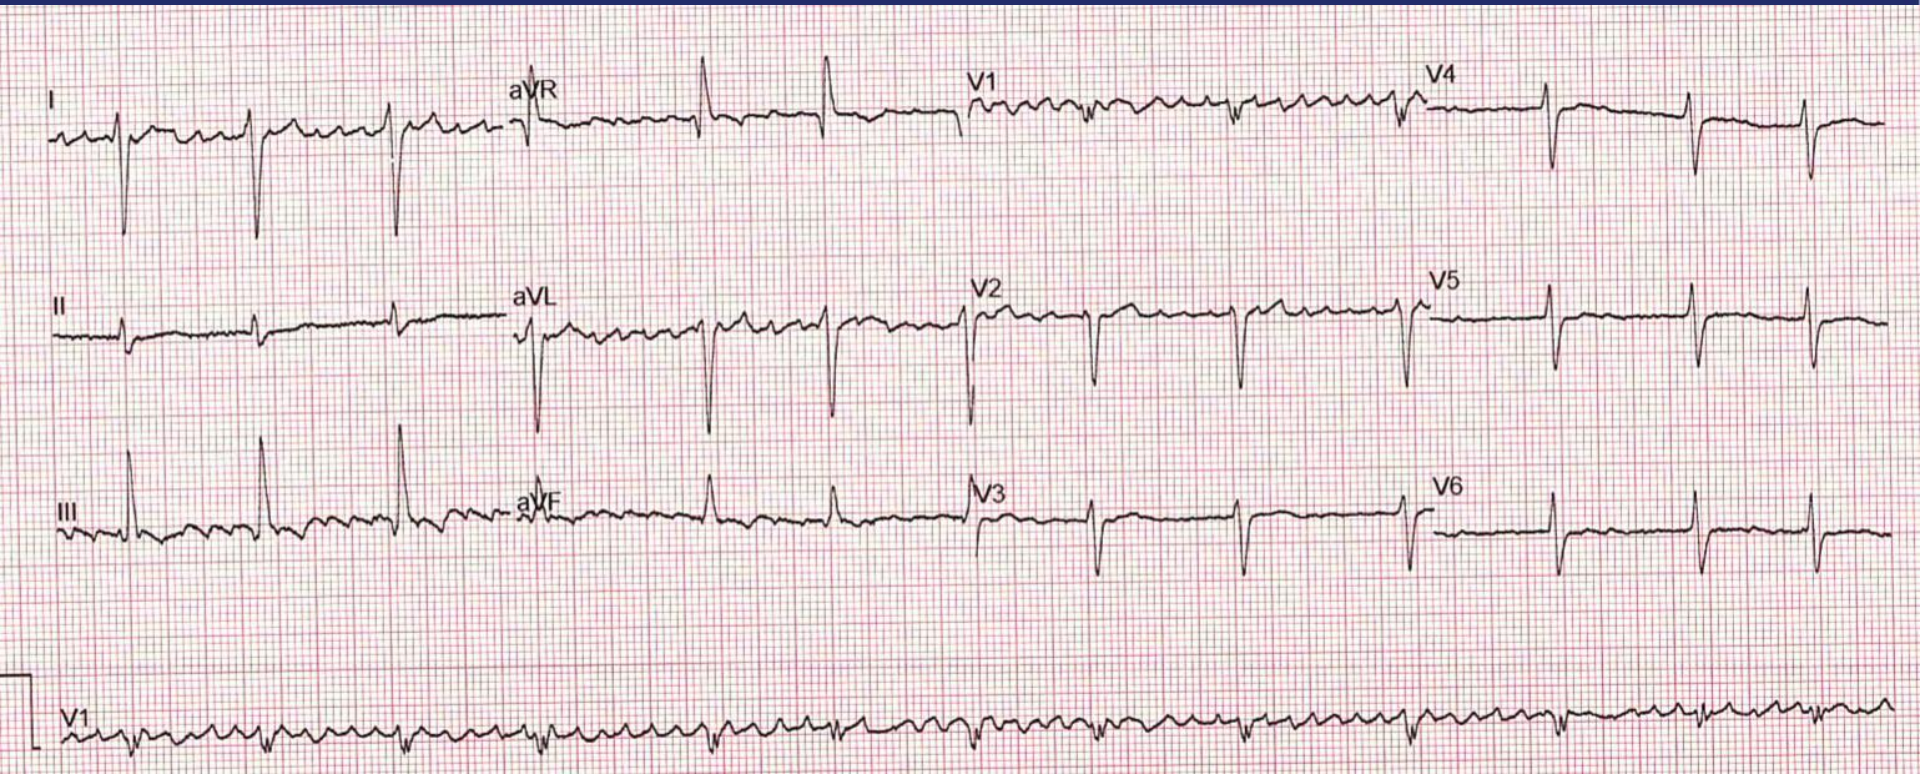

# 22 yo AAM with chest pain

# 45 yo with syncope

# Artifact or AFib?

# Rhythm Strip from Hospital

# Take Home Message

- ECGs can be hard
- Be logical, think through the basics...P wave, QRS, T wave, etc.
- Call you favorite cardiologist for consult/review
- Know what you don't know
- Refer when necessary

Thank You
